The Shepherd: A Model of Healing

May 23, 2011

Chaplain Steven Stern

What does the shepherd know about the needs of his sheep?

How does the shepherd feel about his sheep?

What does it mean the shepherd “sought the lost sheep until he found it”?

With the shepherd model in mind what thoughts and challenges arise for us as we encounter lost sheep such as rebellious sheep?

Angry sheep?

Hardened sheep?

Self righteous sheep?

Intellectual sheep?

Sheep in the flock but not of the flock?
