II Goals

Our primary focus will be on the boundless interpersonal sharing of love, mercy and compassion within the Trinity and the life of Christ

According to Scripture and John Paul II, all authentic and life-giving human relationships reflect, in some way, the Communion of Persons in the Trinity.

What is the healing message for me?

What is my spiritual application and personal prayer for reconciliation?

III Process

Consider an artist, using mediums of pencils, oils, stone, wood, clay or cloth. In the experience of human sculpting we will be using a living human being as the medium

This dynamic, also known as family sculpting, has been used in therapeutic and teaching methods in Family Therapy. Gestalt techniques are used to engage one’s entire person—body, mind and spirit.

In this workshop, human sculpting will be employed to demonstrate New Testament relationships, using the theme of reconciliation.

IV Mode of Presentation

1. Personal participation by volunteers/observers
2. Sculpting process guided by presenter
3. Personal reflections shared by role-players and observers
