

Geriatric Spiritual Care

Overview of Program

Presented by Sr. M. Peter Lillian Di Maria, O. Carm.
Avila Institute of Gerontology, Inc.
Carmelite Sisters for the Aged and Infirm

A decorative illustration at the bottom of the slide shows a bright sun with rays rising over a range of blue mountains. The sun is partially obscured by white clouds. The overall color palette is light blue and white.

Spiritual Care Specific to Geriatrics

- Being **present** to elders living in Long-term Care and other settings
- Variety of needs, especially the memory impaired
- Ministering to elders, their families and the staff
- Care-partnering vs Caregiving

Benefits of the GSC Certificate Program

- It is a bridge for those seeking a path to a more in-depth study of Pastoral Care through the Clinical Pastoral Education (CPE) course.
- It is an option for those who want to volunteer with elders but are unable to commit to the CPE course.
- It helps one gain an understanding of ministering to those who are memory impaired.
- It is aligned with the Competencies for Pastoral Care.

Course Requirements

- 65 hours of class time separated into 5 modules
- 55 hours clinical time in home served by the Carmelite Sisters for the Aged and Infirm
- Course work includes various written assignments, quizzes and group discussions

Overview of Geriatric Spiritual Care

MODULE 1: Dynamics of Spiritual Care

- To develop the technique of life review as a source for rendering geriatric spiritual care.
- To recognize the individuality of spirituality.
- To acquire an understanding of prayer, ritual, and sacraments in the life of elders.

Overview of Geriatric Spiritual Care

MODULE 2: Theology of Suffering

- To identify a theology of suffering through the use of Old and New Testament verses.
- To emphasize the spiritual value of the Paschal Mystery.
- To come to terms with the reality of death and the dying process.
- To comprehend the dynamics of grief and appropriate responses.

Overview of Geriatric Spiritual Care

MODULE 3: Active Listening

- To better understand the technique and significance of active listening when interacting with elders.
- To become more comfortable in dealing with silence.

Overview of Geriatric Spiritual Care

MODULE 3: Active Listening

- To recognize behavior as manifested by people with dementia.
- To better understand the distinction between symptom and problem.
- To understand the dynamics with family and staff.

Overview of Geriatric Spiritual Care

MODULE 4: Moral Ethics

- To enhance the participants' understanding of the theories and principles of ethics as a source for a decision-making process.
- To broaden an understanding of the major religions of the world and their influences in creating values within society.

Overview of Geriatric Spiritual Care

MODULE 4: Moral Ethics

- To establish a methodology for discovering right and wrong.
- To utilize case studies as a source of understanding the decision-making process.

Overview of Geriatric Spiritual Care

MODULE 5: Palliative Care

- Discuss palliative care.
- Address difficult conversations during the dying process.
- Recognize symptoms and understand basic medical terminology during the dying process.

Overview of Geriatric Spiritual Care

Community Networking

- To identify components of a Spiritual Care Network.
- To understand parish ministry to elders.
- Address current issues in spiritual care.

Overview of Partners in Pastoral Care Ministry

- Spiritual Care to Elders is a Specialized Ministry - just as other ministries, and each requires specific topics
- There are core topics needed in all areas of Pastoral Care ministries
- Best Practices
- Networking and Resources

***“One must have a deep
and abiding love for the elderly
and a real desire to be of service to them.”***

---Venerable Mary Angeline Teresa McCrory, O.Carm.
