

A Blessing

Holy one who has given us life

As I receive this vaccine. I ask for your blessing

May your grace be ever present

Bless me with wisdom to use my gifts with skill

to have a strong body, generous heart and keen mind

Support and strengthen me as I reach out in love and concern

to comfort those in fear and pain

When despair numbs my soul, give me hope.

Guide me to act with courage

sheltered by the wings of peace

and kept in safety and health

Amen.
